National ISTS data FS_#1 OCTOBER 2024

Molding local challenges into opportunities...

Integrated Sample transport Program Components

HIV Viral Load

HIV Infant Virologic Testing (EID)

TB Program

Outbreak response

Samples

19840

Results

17542

Trips Conducted

1020

TAT pick-up to drop off

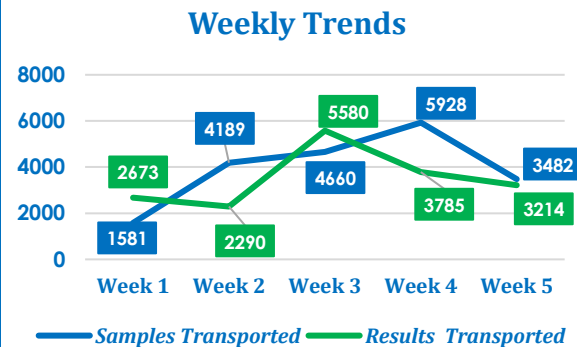

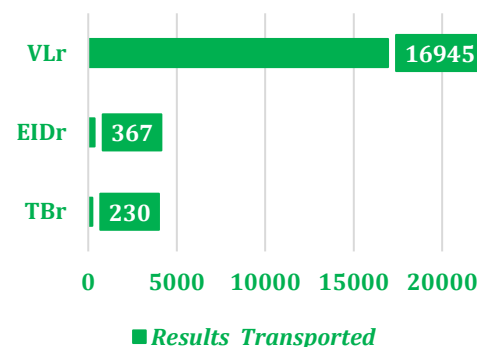

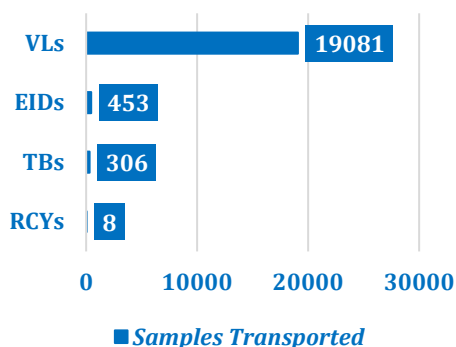

S: ~48 hrs

R: ~72 hrs

<1%

Rejection

96% of ALL samples transported were VL samples

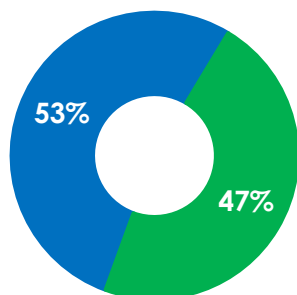

256 Health facilities collected and transported samples or received results

Key Challenges:

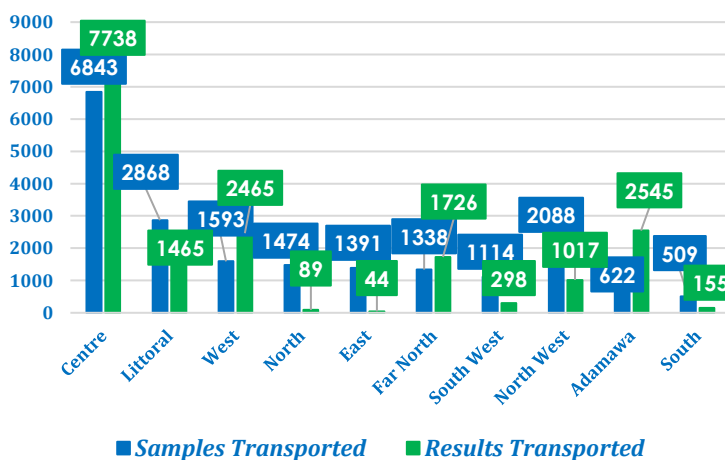

- ✓ Stockout of sample collection materials
- ✓ Stockout of testing reagents at testing labs
- ✓ Restricted circulation of TAs within urban areas
- ✓ At least two TAs were involved in accidents

TA: Transport Agent
